

## **Kiva Assessment Calendar for 2026-2027**

Regular attendance is especially important during our critical assessment windows, as these assessments help us understand each student's academic growth and instructional needs. We ask families to make every effort to ensure students are present, on time, and ready to learn on scheduled assessment days. Your child's participation provides valuable information that helps our teachers plan instruction and provide the support each student needs to be successful. Thank you for partnering with us to support your child's learning and achievement!
